About Excel-Air Services, Inc.

Located in Rensselaer, Indiana, Excel-Air Services, Inc. is a leader in the general aviation industry providing quality aircraft modification & maintenance services and is known world-wide in our specialization in Grummans. Excel-Air has been servicing aircraft for nearly 40 years, and has a technician staff with more than 90 years combined experience in aircraft maintenance.

Owner John Sjaardema received his A&P license in 1972, his IA in 1976, then served as a missionary & mechanic/pilot in Nigeria until 1982. After returning to the U.S., he started his own aircraft maintenance company in Kentland, IN, then moved it to DeMotte, IN where Excel-Air Services became incorporated. In 2000, Excel-Air moved to its current location at the Jasper County Airport (KRZL).

Mission Statement: It is our intent, as employees of Excel-Air Services, Inc., to provide excellence of service to our customers through all aspects of their experience with us; from initial contact, to receiving their completed aircraft back from us.
